Pursuing

Professional Experience

Java Developer Intern

Cognifyz Technologies, Nagpur, Maharashtra   December 2024 To January 2025

Enthusiastic and fast-learning Java Developer Intern looking to join a dynamic team. I have a solid background in Java programming and object-oriented principles. I want to apply what I know to real-world projects. I'm excited to learn from experienced developers and help create high-quality software solutions.

Projects

Online Ticket Booking

Java, JSP, Tailwind CSS, Servlet & MySQL   View Project

The Online Ticket Booking System is a dynamic web application developed using Java Servlets and JSP, designed to allow users to browse movies, check showtimes, and securely book tickets online.

NovaTech (Under Development)

Java, HTML, CSS, JSP, Servlet & MySQL   View Project

It is a web-based application that allows users to apply for jobs, while clients can explorer our services and get in touch with us.
